

Don't Leave the Most Important Decision to Others

- Approximately 2.7 million deaths occur each year in the U.S.
- 1.3 million cremations are carried out in the U.S. per year
- Almost 59% never go to the cemetery
- Only 31% have a traditional service

Ask yourself these questions:

- ***Do I have a clear understanding of the Catholic teaching on what is a proper burial?***
- ***Can I articulate the proper steps that should be handled while planning for myself or a family member during these difficult times?***
- ***What is proper for handling cremated remains for a loved one?***

All are welcome to join us for a short video and participate in a discussion exploring the meaning & importance of the Catholic Vigil, Funeral Mass, & Committal service on sacred ground. Your Faith Matters!!
